

Over-Dimension Permit Renewals

Unlike most renewals, annual over-dimension permits are valid for 365 days, not necessarily a calendar year.

The most common annual over-dimension permit is the extended weight permit, which allows up to 105,500 pounds gross weight on legal axle and group axle weights. The permit covers the weight only, not registration and tax credentials.

Other annual over-dimension permits are available for loads that are overwidth, overlength, or overheight.

Renewal notices for annual over-dimension permits are typically mailed by a third party agent. The agents are listed below, and can process renewals on your behalf.

Annual over-dimension permits may be ordered or renewed through Oregon Trucking Online. From the Over-Dimension Permits Menu, click on Add/Renew Annual Permits.

In addition, annual over-dimension permits may be ordered or renewed at our offices in Salem or Portland.
